

UCI ROAD TO REINVENTION:

a one-day conference for Executives on Leadership in the Digital Age

R₂R
2019

Tom Peck
Executive VP and Chief Information and Digital Officer
Ingram Micro

Tom Peck serves as chief information and digital officer for Ingram Micro Inc., where he oversees all aspects of the company's Global Information and Digital Technology efforts.

In this dual role, Peck guides the strategic development and evolution of Ingram Micro's technology backbone, leading a growing team of engineers and technical staff who support the technology, systems and digital requirements of the company's global business operations. Among his immediate areas of focus include developing a long-term systems architecture and effectiveness plan designed to deliver additional speed, agility and scalability to support both internal and external partners. Peck's global perspective, leadership and vision will help the company continue to deliver an enhanced customer and associate experience by modernizing and digitizing core systems and processes, and integrating them across all internal and external-facing products and platforms.

Prior to joining Ingram Micro in March 2018, Peck most recently served as senior vice president and global chief information officer at AECOM, a multi-billion-dollar global provider of professional technical and management support services. In this capacity, Peck was responsible for the support and deployment of technology used to serve more than 100,000 employees and thousands of clients across 150 countries. He has also occupied high-performing CIO leadership roles at Levi Strauss & Company, MGM Resorts (formally MGM MIRAGE) and General Electric-owned NBC Universal's global entertainment business unit. During his tenure at NBC Universal, he also served as Quality Leader and was responsible for process improvement and global Six Sigma deployment.

Peck began his career as an officer in the United States Marine Corps, holding numerous finance and technology roles inclusive of both operational and headquarter assignments and culminating in an enterprise-wide program management role on the Marine Corps Chief Financial Officer's team at the Pentagon.

Peck holds a Master of Science in Management from the Naval Postgraduate School, a Bachelor of Science in Economics from the United States Naval Academy and is a certified Six Sigma Master Black Belt. In 2015, he was inducted into the CIO Hall of Fame and currently sits on the board of directors of Veterans Park Conservancy as CFO and Treasurer.
